PROFESSIONAL SUMMARY

Seeking a challenging position as a Software Engineering where I can leverage my expertise in Java, Python, React.js, Node.js, SQL, NoSQL(MongoDB) and web development to design scalable solutions. Passionate about solving real-world problems through clean code, optimized backend systems, and innovative software engineering practices.

EDUCATION

Institute of Engineering and Technology, Lucknow

Sept 2023 – May 2025

Master of Computer Applications

CGPA: 8.14

TECHNICAL SKILLS

Languages:

Java, JavaScript.

Backend and Frameworks:

React.js, Node.js, RESTful APIs.

AI applications:

Prompt engineering, Cursor, OpenAI, Codex.

Databases:

SQL Server, NoSQL(MongoDB), PostgreSQL, Supabase.

Concepts:

Data Structures and Algorithms, OOP.

Tools:

Git, GitHub, Postman, Razorpay, Vercel, VS Code.

EXPERIENCE

GFAM MEDIATECH (Full Time)

01 June 2025 – 15 Jan 2026

- **MyPrepSpot — Library Booking & Productivity Platform.**
- **Tech Stack:** Next.js, Express.js, Supabase,, Razorpay, Google Maps API,Google Gemini API, JWT.
- Secured platform access and onboarded more than 400 real users by implementing robust authentication using Google **OAuth2.0** and OTP via Supabase and Nodemailer, leveraging React Hooks (useState, useEffect) for auth state management and protected routes.
- Built a **GenAI-powered quiz engine** using the **Google Gemini API**, LLMs, prompt engineering, NLP, structured output generation, automated evaluation, and intelligent scoring for dynamic question generation; developed an **ML-based user engagement prediction module** that improved personalized dashboard interactions by **18%**.
- Engineered and deployed a complete Razorpay payment lifecycle (booking, renewal, refund, coupons) using RESTful APIs, **webhooks**, and server-side validation, enabling secure processing of 200+ transactions/month with an admin-controlled offline payment approval workflow.
- Optimized discovery by creating **city/category pages** with **Server-Side Rendering (SSR)**, achieving a **30% speed improvement** in initial load time.
- Integrated productivity and location-based features including a Pomodoro Timer (using React hooks, timers, and state management) and Google Maps API, increasing average user session time by 25 minutes and improving listing accuracy for **95%** of locations.

CANVAS CHROME (Internship)

Feb 2025 – May 2025

- **QuickKart — E-commerce Grocery Platform.**
- **Tech Stack:** React.js, Node.js, MongoDB, Tailwind CSS, Cloudinary, Razorpay.
- Implemented secure user and seller authentication using **JWT-based access tokens**, OTP verification, and role-based authorization, improving transaction security for more than 50 demo users and protecting sensitive API endpoints.
- Developed end-to-end payment and order management systems using Razorpay APIs for online payments, Cash-on-Delivery (COD) workflows, and Admin/Seller dashboards with RESTful APIs, enabling sales analytics, order tracking, and **20%** faster inventory management.

PROJECTS

AI Fitness Coach | Tech: Next.js, Tailwind CSS, Google Gemini, ElevenLabs

Jun 2026

- Built an AI-powered fitness assistant using **LLM** and Google Gemini to generate personalized workout and diet plans with voice narration, AI-generated images, PDF export, and plan history.
- **Link:** Fitnesscoach

Sorting Visualizer | Tech: HTML, CSS, JavaScript

Jan 2025

- Developed interactive app visualizing **Bubble, Insertion, Selection, Merge, and Quick Sort algorithms** with real-time animations.
- **Link:** sorting-visualizer-three-pi.vercel.app

Career-Friendly | Tech: React, Node.js, Express.js, MongoDB, Tailwind CSS

Dec 2024

- Built a full-stack job portal with JWT authentication, implementing RESTful APIs, role-based access control, Cloudinary file uploads, Redux state management, and responsive Tailwind CSS UI supporting job posting and application workflows.
- **GitHub:** [Career-Friendly Repo](https://github.com/adarshaady17/Career-Friendly)

ACHIEVEMENTS

- Solved **400+ DSA problems on LeetCode**, **5 Star Problem Solving** on HackerRank.
- Certified Software Engineering MERN Stack Developer from Apna College with more than 300 DSA problems solved and strong full-stack development experience
